

ARCTIC EXPLORERS REACH VICTORIA ON U.S. CUTTER "BEAR"

Eleven Lost on Journey—Captain Bartlett Relates Story of Expedition

BELIEVES STEFANSSON
WILL COME OUT SAFE

Those Not Used to Northern
Hardships Show on Faces
what They Endured.

Victoria, Oct. 28.—After a bitter experience in the northern wastes in which the terrors of polar exploration work were felt to the full, nine survivors of the Canadian arctic expedition, which left Esquimaux in June, 1913, have arrived here. They were brought from Nome, Alaska, on the United States revenue cutter, Bear.

In addition to Captain Bartlett, the party consists of John Murray, chief engineer; W. L. McKenlay, meteorologist and magnetician; R. J. Williams, second engineer; R. J. Hagg, ship carpenter; E. Chafe, cabin boy; F. W. Maurer, freeman; H. Williams, seaman, and Robert Thompson, steward.

The other persons rescued by the ship King and Wing from Wrangell island were an Eskimo family, consisting of Kurluk, his wife and their two young children.

Eight of the expedition party were lost on the journey from the point where the Karuk, was crushed by the ice to Wrangell island and died in camp at the island, one from an accident. The loss among the scientists was heavy.

Two men distinguished in the last Shackleton expedition died. They were Dr. Forbes Mackay and James Murray, meteorologist and oceanographer, who had acted as the Kelvia-Peru delimitation commission.

Captain Bartlett today told the story of the Karuk's last voyage in bare facts. Relating a few of the obstacles he had overcome on his trip across the ice from Wrangell island to Emma harbor, Siberia, he dismissed most question as to his perils with a non-

chalant, "Well, it's all in the day's work."

With an Eskimo boy, seven dogs and a sled, the explorer left Wrangell island for Emma harbor. He was confronted many times by barriers which it seemed could never be passed. But with almost superhuman efforts he forced slowly ahead and finally reached his destination nearly exhausted. But he succeeded in carrying out his purpose. The eight of the eleven men he had left from Wrangell island were rescued.

When asked whether he thought Stefansson, head of the expedition, would be heard from again, Captain Bartlett replied:

"He'll turn up all right. He knows the Arctic better than any one else, and he will turn up."

Captain Bartlett shows no sign of his great physical exertions, but this is not surprising, after his historical journey with Commander Peary to the vicinity of the pole. Other men, not so insured to hardships, show in the pallor of their faces the trials to which they have been subjected.

Dr. Morse's Indian Root Pills are made according to a formula in use nearly a century ago among the Indians, and learned from them by Dr. Morse. Though repeated attempts have been made, by physicians and chemists, it has been found impossible to improve the formula or the pills. Dr. Morse's Indian Root Pills are a household remedy through-out the world for Constipation and All Kidney and Liver troubles. Get it promptly and effectively, and Cleanse the System.

MAP SHOWING LOCATION OF PRESENT OPERATIONS

British Army Officer Motors Half Way Across Germany as Chaffeur

New York, Oct. 28.—How a British army officer was conveyed half way across the German empire into France disguised and acting as a chauffeur to Count De Biscuella Villancore, of Naples, Italy, was related by the count on his arrival here today on the steamer Carpathia.

"With my wife and chauffeur, I was motoring in Germany when war was declared," said the count. "At Carlsbad I met the British officer, who was an old friend. He asked if he could join my party as my chauffeur and I consented. The regular chauffeur became a man servant. We were arrested nine times before reaching France. Only once was the identity of my friend suspected and that was when he unconsciously returned the military salute of a sentry, who held us up."

"In France our troubles continued. During the seven days after we left Carlsbad we were arrested 32 times and I was accused of being a spy of British, French, Russian, Austrian and Italian nationality. I speak all these languages fluently, and perhaps that is the reason."

**BRITISH BATTLESHIPS
DO TERRIBLE DAMAGE TO
OSTEND AND VILLAGES**
London, Oct. 28.—The Times correspondent in Belgium writes the following:

"Observation from a captive balloon has revealed how effective has been the fire of the British warships on Ostend, Middelkerke, Lombardside and other coastal villages. Not a single wall remains standing in the villages of Westkerke, Slupe and Nieuve. Several other villages are also in ruins. All this damage was caused by the British ships."

THE KAISER AT THE FRONT
Kaiser Wilhelm, though he goes to the front, does not believe in sharing the hardships of his troops. He lives in this little house which is made of asbestos and is fireproof. It is transported as part of the kaiser's luggage. All parts of this structure are detachable. When put together, the whole forms a comparatively luxurious dwelling place.

**DEATH OF 41 PEOPLE
CAUSED BY AN ERROR**
Jefferson City, Mo., Oct. 28.—The collision between a Kansas City Southern passenger train and a motor car of the Missouri and North Arkansas railway, near Joplin August 1 in which 41 persons perished, was due to an error on the part of the motor crew, according to the report filed today by two members of the Missouri public service commission, who investigated the wreck.

**MANY ADVOCATING
ROYAL WELCOME TO
CANADIAN SOLDIERS**
London, Oct. 27.—Suggestions continue to appear in the newspapers urging the military authorities to arrange for a public welcome to the Canadian soldiers before their departure for the front. Among the latest advocates is Lord Derby, who says that he would be very glad to see the Canadian troops receive a hearty welcome by London citizens.

Prince Maurice is Killed.
London, Oct. 28.—Prince Maurice of Battenberg, nephew of King George, and a son of Princess Henry of Battenberg, has been killed on the battlefield in France. He was an officer of the King's Royal Rifle Corps.

New Sovereign Grand Commander.
New York, Oct. 28.—At the 157th annual convention of the supreme council of the Ancient and Accepted Scottish Rite of Free Masonry of the United States, held here today, W. M. Bayless, of Washington, D.C., was elected sovereign grand commander.

Blue Ribbon, the name signifies all that is best. Always ask for Blue Ribbon Coffee, Baking Powder, Tea, Spices, Jelly Powders and Extracts. They will give perfect satisfaction.

Japan's Present Expenditures Will Be Only to Make Adjacent Seas Safe

New York, Oct. 28.—The east and west news bureaus issued this afternoon the following statement, which was received by them from Tokyo under date of today:

"Yukio Ozaki, minister of justice, who has heretofore consistently advocated the disadvantages of Japanese entering into the race of armament expansion with other great powers, makes the following statement with regard to the navy and army budgets to be presented before the coming diet:

"In the next budget no proposal for the construction of any new battleships will be made. It will provide only for the building of submarines and torpedo boat destroyers, with the sole purpose of placing the defence of Japan's adjacent seas on a safer basis. This will set at rest any suspicion some naval power may have harbored toward Japan."

"Again, at the present moment Russia places her faith in Japan and China on her maintenance of its territorial integrity. Consequently, the increase of armament hitherto so far discussed will be undertaken so far as the people can easily bear the burden, and the extent of ensuring peace in the far east."

**GERMANS AND AUSTRIANS
BLAME EACH OTHER FOR
MISFORTUNES BEFALLING**
Petrograd, Oct. 28.—According to the Roskyi Invalid, the discord between the Germans and Austrians, if reports of the Austrians can be credited, is increasing. After each defeat the metropolitan style of newspaper from most of the country weeklies for their own misfortunes, while the Austrians blame their allies.

A German major, asked what was his opinion of the Austrian army, replied: "Are they really soldiers? No, they are but a flock of sheep. All they can do is to retreat."

Drops Bomb in Switzerland.
Paris, Oct. 28.—A Havas news agency despatch from Belfort says that a German aeroplane flew over the fortress of Belfort on Friday and dropped a bomb which fell in Swiss territory. Much irritation against Germany, it is added, was caused by the incident.

Lugger Strikes Mine.
London, Oct. 28.—A Dutch trawler reports that the lugger, Vlaardingen, struck a mine 40 miles north of Ymuiden, a seaport of Holland, according to an Amsterdam despatch to the Reuters Telegram company. The crew and ship were lost.

NAVAL BATTLES ABOVE AND BELOW.

When the Spaniards, then lords of the ocean, built their sixteenth-century galleons three decks high and armed them with guns which in that age were supposed to be of sufficiently heavy calibre to rock the foundations of the world. Drake sallied forth with craft not much bigger than a good-sized yawl and, by getting under their line of fire, blew up the Don's armada and drove the Castilians from the sea.

That was nearly four hundred years ago and there have been many changes in ship building since those gallant days. But the experience of the present war seems to indicate that the vulnerable place with war ships is where it always was; beneath the firing line. All that Drake had to do in those early days was to keep low—the guns could not be ranged to catch his diminutive ships when he got to close quarters. Today they are going lower still—below the water line, where a shot directed against a submarine is powerless except to put its eyes out.

Where the submarine and battleship have come into contact in this present war, the results have been as disastrous to the submarine as were the onslaughts of Drake against the galleons. Now the nations, having established by practice that the ship which conceals itself beneath the waves is very dangerous indeed, are commencing to enlarge upon the submarine. Russia is building one of five thousand tons displacement, four hundred feet long, which will be able to travel two hundred miles without coming to the surface. It throws a broadside of eight torpedoes, for under water fighting, and mounts five-inch guns for surface fighting.

The day of the battleship seems to have suddenly come to a close, just as the day of the galleon was brought to quite as sudden a close in just about the same waters. The naval battles of the future, apparently, are to be fought out in the depths, and the bombardments to be carried out by ships which will approach the fortress under the surface.

There is this much satisfaction, however, that while the obsolescence of the battleships would mean a greater loss in constructed warships to Britain than to any other country, the allies in this war—particularly France—have the finest line of submarines and the largest torpedo fleet afloat, and the new style of fighting would find them in the better position.

THE THING WHICH MAKES THIS WAR EPOCHAL.

It was not until 1776, when the rebellious American colonists set out to establish a new precedent in their own behalf, that the theory was seriously advanced that only such governments as derived their power from the consent of the governed could be counted as just governments. The idea at that time was new, counted ingeniously novel, to say the least, and such a radical departure from any previous conception of the proper foundation of governmental powers that the United States government was counted for years as entertaining such unorthodox beliefs that many nations refused to recognize Uncle Sam in public.

Yet in the short space of a century and a half the world's conception of the proper source of the governing authority has so changed that the nation which does not accept the Declaration of Independence axiom is the nation counted as the pariah among the family of nations. Britain, which sent armies to overthrow the fallacies gaining ground in America, now embraces those fallacies and proclaims herself the first democracy of the universe. France massacred her kings and nobility to arrive at the new conception, and even then was three-quarters of a century delayed. Italy went through terrible internecine and fratricidal wars to reach the goal. Japan emerged from barbarism to herald the dawn in democratic habilitations. China feels the stirring of the yearning for freedom from autocracy. Even Russia, with centuries of precedent to justify the perpetuation of kingly rule, realizes the inevitableness of the coming change.

Only Germany holds out against the great universal revolution in ideas of government. Germany alone persists in the theory of divine-ly-ordained authority being competent to order the lives of the millions without their consent, and Germany is fighting today against the civilized world for the perpetuation of the old order of things.

If Germany wins the clock will have been turned back to where the handful of uncouth settlers in America started in 1776. If Germany loses, the question will be forever settled by the latest recalcitrant government of consequence in the world being brought to a recognition that its authority cannot be a just authority without the consent of those governed. This is the essence of the thing which makes this war epochal.

"EMPEROR OF EUROPE" THE KAISER'S DREAM.

There was no secret about Germany's intentions to conquer adjoining nations, and have the Kaiser crowned "Emperor of Europe." This is shown by the publication of a book entitled "France in Arms," by Marshal Baron Bernhard von Schellendorf, former Prussian minister of war. Here is an extract from the book of Baron von Schellendorf, who by the way is a personal friend and confidant of the Kaiser. He says:

"The next war will be atrocious! . . . Between Germany and France it must be a duel to death. To be or not to be, that is the question that must be asked and will be solved only with the ruin of one of the antagonists."

"Let us not forget the civilization task which the decrees of Providence have set before us. Just as Prussia has fatally been the kernel of Germany, regenerated Germany will be the kernel of the future western empire."

"And in order that no one should be left in ignorance, we proclaim, at this early date, that our continental nation has a right to proclaim superiority on sea, not only in the North sea, but also in the Mediterranean sea, and in the Atlantic. We shall therefore absorb one after the other, all the provinces which lie near Prussia; we shall successively annex for ourselves Denmark, Holland, Belgium, France-Comte (in France), Northern Switzerland, Livonia, then Trieste and Venice, finally the north of the Gallic region, from the Somme to the Loire."

"Such a program, which we give out without fear, is not the word of a madman; the empire we wish to found will not be a dream. We now have in hand the means to realize it."

The German program is thoroughly understood all right, but the best laid plans oft go awry.

FARMERS LIVING NORTH OF ISLAND LAKE, WANT C.N.R. TO BE OPERATED

Gainsford, Alta., Oct. 28.—At the last meeting of the Island Lake branch of the United Farmers of Alberta, the following resolutions were adopted:

Whereas, the people north of Island Lake are almost completely isolated from railroad facilities by this body of water, it being impossible for any of the settlers residing north of the lake to avail themselves of the Grand Trunk for shipping stock and grain or any of the heavy articles of farm produce; thus unnecessarily raising the development of this section, and also making it more difficult for settlers to maintain themselves and their families at a time when no other lines of employment are available, and we are compelled to look solely to the products of the soil as our only means of maintenance, and, whereas, the time has past when the owners of the C.N.R. assured the railway commission that the road would be in operation, therefore be it resolved that by every fair and legitimate means we will seek to secure the completion of the road to such a degree, at least, as to enable us to secure the service which is so urgently needed, and so vital to the welfare of the community.

SHOOTS WOMAN IN HIS APARTMENT THEN TRIES TO END HIS OWN LIFE

Minneapolis, Oct. 28.—C. E. Stante, 39 years old, shot and killed an unidentified, well-dressed woman about 22 in his apartment at a local hotel late last night and then shot himself. He died while being removed to a hospital. The two had entered the apartment a few minutes before and persons in adjoining rooms who heard the shooting said it had been preceded by a violent quarrel. The woman was wearing a ring and bracelets, one of which was engraved "Helen." Little was known of Stante who, seemingly prosperous, had lived at the hotel several months.

TOWN OF ROULERS IS ASKED TO CONTRIBUTE

Amsterdam via London, Oct. 28.—According to the Aardenburg correspondent of the Nieuwe Rotterdammer Courant, fugitives who have arrived there say that when Roulers was bombarded the French offered desperate resistance. Several six days followed, the soldiers firing from windows and roofs and before they finally evacuated the town. The Germans, the correspondent adds, burned down half the town. Roulers will be required to pay \$40,000 as a war contribution.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder Bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the uric acid is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get your pharmacy.

Take four ounces of Jad Salts: take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys. To neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

WAYSIDE APPLES

(By Peter MacArthur)

Why should the apples be wasted? Even though the market price of other country products—such as grain, butter, meat, etc.—may be low, they will be cared for and little allowed to go to waste. The necessary machinery for marketing them has been perfected, though the price may fluctuate, but with apples and other fruits the case is entirely different. This department of trade has been almost entirely speculative and unbusinesslike. The dealers have seen a chance to make a large profit, much good fruit has been allowed to go to waste. But even if a market were established and properly organized there would still be a waste, because of the attitude of the public. Everybody wants No. 1 apples of the choicest varieties, and there is no market for culls. It is quite true that many of the culls are used in evaporating factories to make dried apples and also to make cider and vinegar. But the country is full of uncared-for orchards that yield a large supply of excellent apples that cannot be graded. It is a shame that these should be allowed to waste. The cost of production being practically nothing beyond the rent of the land on which the orchard stands, a very small price would move the farmers together and save these apples. If there were a market for them, they would be enough, not only for the poor, but for anyone with a sense of economy.

Let me remind those who insist on nothing but the choicest apples, which are always bound to be more or less expensive, that the most delightful appreciation of apples in the language was not written about any of the well-known varieties but about the culls, in neglected corners of New Zealand. Speaking of some of his apple-eating recollections, Thoreau says:

"You would not suppose that there was any fruit left there on the first survey, but you must look carefully to system. Those which lie exposed are quite brown and rotten now, or perchance a few still show some blooming cheek here and there in the wet leaves. Nevertheless, with experienced eyes I explore under the bare apples, and the buckberry bushes, and the withered sage, and in the crevices of the rocks which are full of leaves, and pry under the fallen and decayed ferns, which, with apple and other leaves, thickly strewn the ground. For I know that they lie concealed, fallen into hollows long since, and covered up by the leaves of the tree, itself a proper kind of packing. From these hiding places, everywhere within this circumference of the tree, I draw forth the fruit all wet and clammy, and nibbled by rabbits and hollowed out by crickets, and perhaps a leaf or two crested to it by a mossy bird's nest. I have learned to look between the leaves of the suckers which spring thickly from some horizontal limb, and now and then one lodges there, or in the very midst of an older clump, where they are covered by leaves, and may be nibbled by rabbits and hollowed out by crickets, and perhaps a leaf or two crested to it by a mossy bird's nest. I have learned to look between the leaves of the suckers which spring thickly from some horizontal limb, and now and then one lodges there, or in the very midst of an older clump, where they are covered by leaves, and may be nibbled by rabbits and hollowed out by crickets, and perhaps a leaf or two crested to it by a mossy bird's nest. I have learned to look between the leaves of the suckers which spring thickly from some horizontal limb, and now and then one lodges there, or in the very midst of an older clump, where they are covered by leaves, and may be nibbled by rabbits and hollowed out by crickets, and perhaps a leaf or two crested to it by a mossy bird's nest."

Apples that were good enough for a philosopher are good enough for anyone. Ask the children how they would like to get such apples as these. None of them should be wasted in a year when the world may be short of food. If you do not want them for yourself sell them to the kiddies."

Congress acts like a married man let out for a night—home seems to be the last place he wants to go to.

An eastern man who studied auto driving by mail has been arrested. That's one lesson that he didn't get by correspondence.

You do not wish alum in your food

You desire to avoid it. Dr. Price's Cream Baking Powder contains no alum or lime phosphate. Its use is therefore a safeguard against objectionable mineral salts which are left in the biscuit and cake when made with inferior powders.

Chemists have shown that a large percentage of the chemicals of which alum baking powders are made remains in the food in the form of Glauber's Salt, hydrate of aluminum and other impurities.

Read the label on the can. Reject a baking powder unless the label shows cream of tartar. Buy and use

Dr. PRICE'S CREAM BAKING POWDER

Made from Cream of Tartar No Alum

GOEBEN AND BRESLAU STILL PART OF KAISER'S NAVY CLAIMS RUSSIA

Ames, Oct. 28.—The cruisers Goeben and Breslau departed prematurely to the Bosphorus after their excursion into the Black sea, because of the Russian declaration that these warships are still considered to be part of the German navy, says a dispatch from its Athens correspondent to the Messager. The evolution of the Russian fleet in the Black sea were directed particularly by an attack on these two cruisers, which still are manned by German sailors and officers by Germans.

Children Cry FOR FLETCHER'S CASTORIA

ESCAPES IN NIGHT ATTIRE FROM FIRE IN HALIFAX CAFE

Halifax, N.S., Oct. 28.—Half a block in the heart of the business portion of the city on Barrington, Sackville and Argyle streets, was destroyed by fire shortly after five o'clock yesterday, several buildings being completely destroyed and others badly damaged. Roughly estimated the loss is placed at \$125,000. Two girls were rescued from the third story of the Mase cafe, the fire burning fiercely in the room adjoining theirs. Only the timely arrival of the ladders saved them. Philip Ross, proprietor of the cafe, and his children, had narrow escapes one of them being carried out in her night clothes.

Elected Vice-President. At a meeting of the Board of directors of the Grand Trunk Pacific railway company, held in Montreal, W. H. Huggar, K.C., was elected vice-president and general counsel in charge of all legal affairs of the company.

Billiousness

When the liver refuses to work there is no remedy like the combination of dandelion, mannitol and other ingredients in Pamelée's Pills. They bring bile to the digestive organs, they stimulate the liver, they eliminate the poisons, they drive out the undigested food, they are a cure.

Parmelee's VEGETABLE PILLS

The Boys of Alberta Are Now Likely Near the Fighting Line

They will soon be in the thick of it and will give such a good account of themselves that every Albertan and every Canadian should watch them as closely as possible.

They are making history this minute. Any day the crucial battle of the greatest war of all time may be decided.

The easiest way to have a comprehensive idea of what is going on, besides reading the news despatches, is by the Daily Capital's war atlas, which has maps of all the countries concerned and of the districts where the battles are now going on, besides a veritable mine of information and pictures of the great holocaust, including the fleets and airships of the powers.

The subscription price of the Daily Capital, payable in advance, to city subscribers is \$2.00 for six months or \$4.00 a year delivered at your door; to country subscribers by mail \$1.50 for six months or \$3.00 per year.

For every six-months subscription received while the supply of atlases lasts we will give one atlas free.

One who is now a subscriber may get one of these atlases by forwarding the price for a renewal for six months after the date his present subscription is paid to.

Better still, if a subscriber whose subscription is paid induces a friend to subscribe for six months to the Daily Capital we will forward each an atlas free.

USE THE COUPON.

EDMONTON PUBLIC SCHOOL GIRLS PLAY BASKETBALL

The girls' basketball season, now drawing to a close, has been a most successful one. Most of the games have been played, the only ones remaining being two or three postponed on account of rain. There are 24 teams in the league and these have played so many games the teams were divided into two divisions—Division A, west of First street and south of the river, and Division B, east of First street. In each division there was a senior and a Junior series.

In Division A King Edward school leads the senior series and Oliver school the Junior. In Division B Queens avenue school is leading the seniors and Norwood school the Juniors. Each one of these four teams has won all its games, so the playoffs should be very interesting. These teams will play off the finals on Friday, October 30, the last day of the teachers' convention, at the Strathcona High school. Oliver Juniors will play Norwood Juniors at 3 p.m. and King Edward seniors will play Queens avenue seniors at 5.30. The winner of the latter game will be declared the winner of the W. H. Clark basketball shield, which has been held by Norwood school for the last three years.

Following is the standing of the various teams:

Division A—Seniors.			
King Edward	W. T. Pts.	1	6
Oliver	6	2	6
Kitchie	2	5	2
McKay	2	5	2
Queen Alexandra	1	6	1
Division B—Seniors.			
Queens	10	0	10
Taradale	7	3	7
Norwood	7	3	7
Abey Taylor	4	6	4
McCauley	2	8	2
J. A. Gray	0	10	0
Division A—Juniors.			
Oliver	10	0	10
King Edward	7	3	7
McKay	3	7	3
Queen Alexandra	3	7	3
Kitchie	2	8	2
Hitchie	1	9	1
Division B—Juniors.			
Norwood	11	0	11
Taradale	9	2	9
Highlands	6	6	6
Queen's	6	7	6
McCauley	5	6	5
Abey Taylor	2	8	2
J. A. Gray	2	10	2

TERRY MCGOVERN WITH MOOSE JAW COMING SEASON

Last Year's Dominion Hockey Player Will Be Seen in Saskatchewan

(Moose Jaw News)
That the boys do not intend to let the grass grow under their feet was evident from the good turnout that showed up at the Y.M.C.A. last night. Although it may be some time before the ring of the skates will be heard in the land the members of the Moose Jaw Hockey club mean to take time for the forelock.

In passing it may be said that there will be no more Moose and no more Robin Hoods, for the two clubs have amalgamated and it is intended to put in a team that will easily bring the Allan cup to this city. A few days ago the News announced the officials of the new organization, and it was evident from that that the new organization will probably be one of the best that has been seen here for many seasons.

Drop Out Names
Both of the teams have dropped their old names and the new organization will be known as the Maple Leafs. It is believed, and rightly so, that if a team is chosen from the best of the players who were last year opponents there will be much more likelihood of them coming out winners than if the two clubs were antagonistic.

Last night there was a most gratifying turnout. Among those who were on the gym floor at the Y. M. C. A. were: Jim Law, Pailie Pascoe, Bob Foucher, Battell McGovern, McDonald and Charlie Ellis. And there were others, and they got light suits on the apparatus on the floor they had a good game of basketball.

Are In Earnest
That in itself is but little. The thing is that the boys mean to get to work in earnest, and they show that they do not intend to let any other team walk over them. And after all is said and done that is the spirit that is wanted.

One feature of the turnout was the number of the old stand-bys who were on the spot. From that it may be reckoned that Moose Jaw is going to have some hockey this year.

Gibbons Beats Maxwell
New York, Oct. 28.—Billie Gibbons of St. Paul defeated Billie Maxwell of Philadelphia, scoring knockdowns in the first, second and seventh rounds. Gibbons weighed 143 3/4 and Maxwell 135 1/4.

BOTH TEAMS PREPARING FOR GREAT STRUGGLE ON GRIDIRON SATURDAY

Rugby practice goes merrily on and the Clives and Varsity should each be able to give good accounts of themselves in the game Saturday. The Clives had a practice last night which should aid them materially in wiping away the defeat at the last game, while the rah rah boys are simply determined that never again will a foe be able to cross their line. An interscholastic league is being formed, and it is expected the Edmonton champions will meet Calgary. In this way wars will be always ready to get in the game for the varsity seniors.

CALGARY MAGNATE HAS DREAMS SEMI-PRO BALL LEAGUE

Edmonton Club, However, Believes Western Canada Will Continue in 1915

Sam Savage of the Calgary ball club has written a letter to the Edmonton Recreation company, which is the commercial name for the bunch of sports which gives Edmonton such high-class ball in the summer, suggesting that, in the event of the financial depression being unduly prolonged (which we, of course, do not want) a semi-pro league should be organized in the cities now comprising the Western Canada circuit.

The local magnates, however, do not look with kindly eyes to the proposal. In the first place, while Calgary may not have any players who would be worth hiring, Edmonton has several. The minute the league gave up the ghost these valuable pieces of humanity would become free agents, which, of course, would not suit at all, as we would not use a ball team only, but real skeletons perhaps.

The prevalent feeling here is that before the time for the annual meeting comes round (next February) the allies will be just getting ready to sign the treaty of Berlin, which will guarantee another flow of coin from one side of the Atlantic to the other. Some of it may find its way to these parts and then we will again have baseball, with all its trimmings—peanuts, popcorn, hoties, umpires, grandmothers' funerals, etc.

AUTO IS USED TO BUCK THE LINE AT EASTERN COLLEGE

University of South Carolina Uses Machine to Hammer Freshies Charging Efforts

New York, Oct. 28.—Football has taken in the automobile. Coach Irvine of the university of South Carolina, has discovered that a motor car makes an excellent charging machine, and is also a handy thing to have about the field.

Don Smith drove out to Howard field Friday night to watch Ralph Glaze put his varsity men through the final paces. When the varsity men were working the freshmen were taking the links out under Coach Irvine, and Don persuaded the peppy little coach to allow his roustabout on the field.

Taking the center guards and tackles of the freshmen line, Irvine lined the rushers up and had them charge the car. The coach took the wheel, and with the car running on the low, charged the freshmen line. It was more sport than benefit for the freshmen, but it showed great possibilities. With a bumper widened and properly padded, the coach would be able to sit at the wheel and direct the charging practice of a large squad of linemen.

It is an easy matter to control the car with the hand throttle and brake, and Irvine got a lot of work out of the boys, although it was mostly play. With a modern car it is an easy matter to make quick stops and fast get-aways, so Irvine proposes to have a machine next week and drive his Trojan eleven up and down the field in signal practice.

They played also were made to drive for the ball under the fender, which was dangerous, but productive of results.

It was Irvine who last year rigged the automobile tackling dummy for the U.S.C. boys during spring practice, and with his motor car charging machine, the freshmen coach believes he has something soft for coaches, but a real work producer for the football squad.

ASK FOR GAELIC OLD SMUGGLER SCOTCH

AND INSIST UPON GETTING IT

War Cries of the Clans
"Chlanna nar con thighe a so 's gheith ribh feidh"
(Gaelic)
"Sons of the mountains come here and get red."
(English)
And with your meat—before it, and after—drink Gaelic Old Smuggler—the Scotch Whisky with the heather in its flavor.

WILSON'S LIMITED—256 Jasper Ave. W. Edmonton

CHAMPS OF MANITOBA AND SASKATCHEWAN GET READY FOR FINAL GAME

Winnipeg, Oct. 28.—Following Club had a short workout on the university campus last night as the drilling squads of university students occupied the whole field till 5.30. Bennett and Trillick put the seniors through a few signal plays and passing was practiced to some extent. Tonight the intermediate Tigers will give the carmen a workout at the Trixie rink, commencing at 7 o'clock. The Tiger executive has come forward in fine style to help the Manitoba champions put on the finishing touches for their big match against Regina for the Hugo Rose cup on Saturday, and the combined assistance of the two clubs will be used to the utmost in the effort to repatriate the Saskatchewan champions from that trophy.

The Manitoba champions have received with acquiescence the suggestion of Regina that Murray Thompson, secretary of the W.C.B.F., come in from Moose Jaw to referee the final at River Park, and as the westerners have identified their willingness to accept a Tiger player for umpire, the chances of an easy adjustment of the officials are good. Suggestions have been made that Jack Lyons, or W. H. Howlands, of the Tigers, assist Mr. Thompson, and other names mentioned are those of Francis Caldwell and Jack Rutan.

TWO MEN MAY LOSE EYESIGHT AS RESULT FOOTBALL CELEBRATION

State College, Penn., Oct. 28.—Captain E. W. Tolin, of State College football eleven, and G. J. Saurhoff, of Haddon Heights, N.J., president of the sophomore class, were terribly hurt last night by the explosion of five barrels of gasoline that was poured over a gigantic pile of fireworks to celebrate the return of the team from Cambridge, where they played the Harvard eleven a tie last Saturday.

Both men, it is feared, will lose their sight.

The force of the explosion rocked residences in all parts of the village. Windows of the college buildings were shattered and plaster fell from the walls of the houses.

Tolin and Saurhoff were standing side by side 25 feet from the pile. Under Saurhoff's direction Tolin brought a lighted torch and threw it into the gasoline.

Moose Jaw Hockey.
Moose Jaw, Oct. 28.—The two senior hockey clubs, the Moose and the Robin Hoods, have been amalgamated and will in future be known as the Maple Leafs. The players have already started indoor work and at the officials are good. Suggestions have been made that Jack Lyons, or W. H. Howlands, of the Tigers, assist Mr. Thompson, and other names mentioned are those of Francis Caldwell and Jack Rutan.

Freddie Welsh goes through 12 rounds without any marks.

Boston, Oct. 28.—Freddie Welsh, of England, lightweight champion of the world, won a decision last night over Matty Baldwin of Charleston, in a bout that went the scheduled twelve rounds.

FREDDIE WELSH GOES THROUGH 12 ROUNDS WITHOUT ANY MARKS

Boston, Oct. 28.—Freddie Welsh, of England, lightweight champion of the world, won a decision last night over Matty Baldwin of Charleston, in a bout that went the scheduled twelve rounds.

Welsh won on points. He had the better of every round to the tenth, when Baldwin cut loose. That round and the remaining two were Baldwin's. Welsh came through the encounter without a mark.

See Page 4 for European War Atlas, free to Capital readers.

KING DEFEATS YOUNG THREE-CUSHION GAME

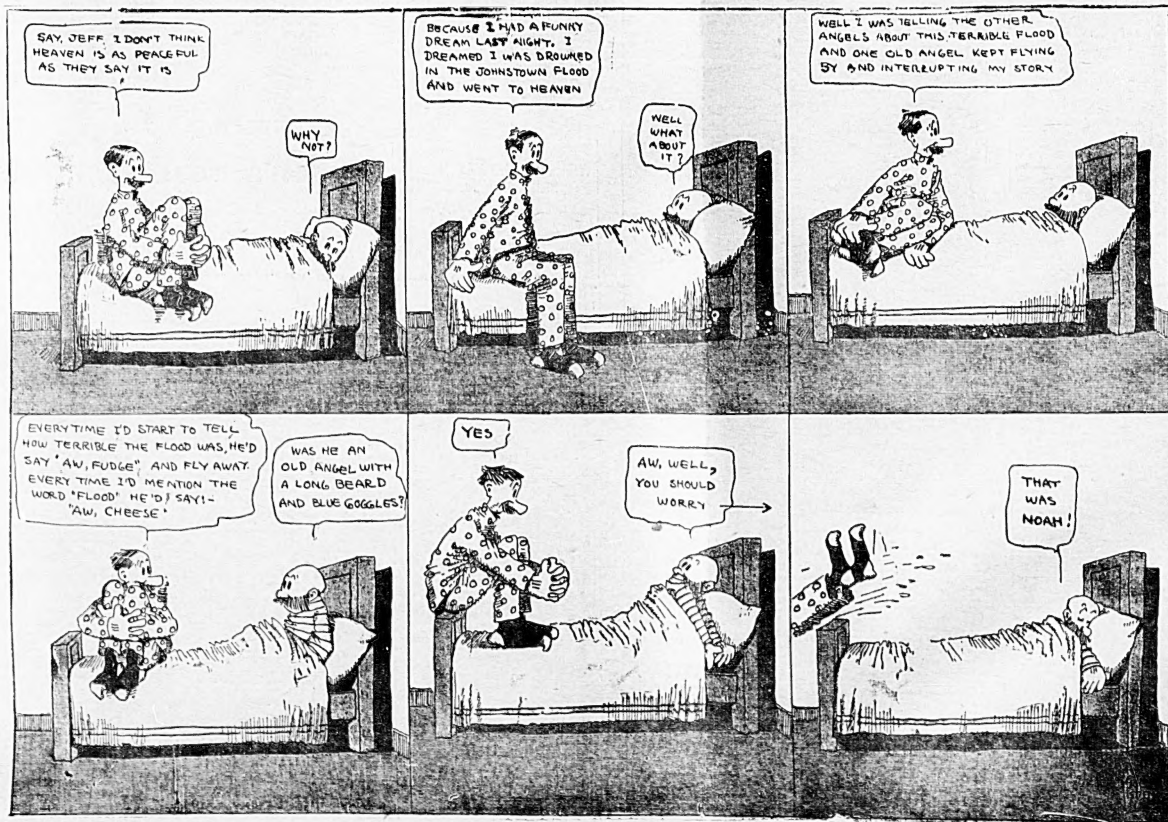

Arthur King defeated Dr. Young in a close game in the three-cushion billiard hall last evening, the score being 50 to 45. King played a steady game throughout, while his opponent was unable to get going. King made two runs of three and one of four and Young duplicated this performance. Tonight Springer and Kay meet in the straight rail tournament.

Last night's scores were:
King, 50. High runs, 4, 3, 2.
Young, 45. High runs, 4, 3, 2.

Kid Williams Wins.
New York, Oct. 28.—Kid Williams, of Baltimore, bantamweight title holder, out fought Dutch Brandt of Brooklyn in a ten round contest in Brooklyn last night. Williams was held even in the first round, but took the lead in the other rounds.

Jeff had no trouble in explaining it.

Think It Over... A Smoke

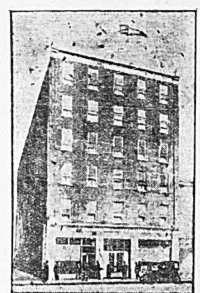

There's nothing as soothing and as satisfying as a good cigar or pipe. In these days of stress and worry a quiet smoke will ease the troubled mind. For quietude, reflection and complacency of spirit a smoke is the thing. But be sure it's a good smoke. There'll be no doubt of it if you buy it at McNeil's cigar stands or stores.

Royal George Hotel, Yale Hotel, Selkirk Hotel, Cecil Hotel, 96 Whyte Avenue, 243 Jasper West. McNEIL, TOBACCONIST. At 243 Jasper Avenue West we will Repair your pipe Expertly, Quickly and Cheaply.

HARRISON AIMS TO MAKE STREET CARS PAY IN EDMONTON

Will Meet with Committee on Operation and Discuss Ways and Means

LOSS AT PRESENT IS \$500 TO \$600 DAILY

Urges that Inducements, Such as Amusement Places, be Offered to Public

Commissioner Harrison made the statement before the committee Tuesday night that the street railway department was at the present time losing from \$500 to \$600 each day. The commissioner urged that further inducements be given the public to ride on the street cars and thus increase the revenue and to this end he has forwarded the suggestion that skating rinks and public amusement places be established at the ends of the car lines in the outlying districts that the public may enjoy them and also increase the street car receipts to get there.

He wants to see the street railway department put on its feet and he is to meet with a committee on operation of utilities to formulate a plan where, by this end will be accomplished. Commissioner Harrison handed his report on the matter to the city council Tuesday night, which reads as follows: "Before the car starts out in the morning, and takes in any receipts, the following fixed charges have to be met before a profit can be made for each day:

Interest and sinking fund charges, \$450; depreciation, \$250; interest on overdraft in bank, \$25; total, \$725. Operation and maintenance charges—Wages and salaries, per day, \$500; power charges, \$250; total, \$750. Grand total, \$1,475.

"In other words, before the street railway begins to show a profit it must carry not less than \$2,325 per day or must carry at least 47,000 passengers per day to pay expenses."

"At the present time the street railway is carrying on the average 32,000 passengers per day and is going behind at the rate of \$500 to \$600 per day. To make this matter a little clearer, you will note the following: 'I find that our system is overcapitalized; that we have twice as many miles of track, street and overhead lines as any city in the dominion of Canada, and in many instances have more rapidly than good business practice would warrant, and by this means in time overcome the deficit.'

"I am thoroughly convinced that if a committee would make a thorough study of the conditions, and receive with open mind suggestions that may be made for the improvement of our system by the superintendent and others, a solution of our street railway difficulties may be so obtained that they may even go so far as to consider the disposal of this franchise to a private company. This would be an extreme measure for which there is no need, provided a remedy is applied in connection with the large deficits incurred in operating the system from day to day."

EDMONTON IN BRIEF

It is announced from Morinville that 42 acres of oats near that place, owned by William Brakenford, yielded 302 bushels an acre.

On Thursday and Friday of this week the eighteenth annual convention of the school teachers of northern Alberta will be held in the Separate school hall.

Resolved, That Great Britain should adopt some form of compulsory training, was the subject of the second of the series of debates at the Y.M.C.A. Tuesday night. T. W. Lawlor spoke for the affirmative and Hugh Graham for the negative.

Jewel Rebekah lodge, No. 25, will hold degree practice in the Oddfellows' hall, Norwood boulevard, Thursday evening, beginning at 7:30.

The Edmonton Property Owners' association will be addressed Wednesday evening in the rooms at the Taylor block by City Engineer Latour, on the subject, "Civil Engineering Problems."

"War Spirit in France" will be the subject of an address by Prof. Boyle of the university in the club rooms of the Y.W.C.A. on Thursday evening at eight o'clock.

The Canadian Pacific Telegraphs announce that they are now accepting all code and cipher messages to Brazil. It should, however, be understood that the Canadian Communication Service has the right to suppress cablegrams. Messages, therefore, are accepted only at sender's risk, on and after October 25, abbreviated telegraphic addresses, registered prior to July 1, 1914, will be received.

Many Russians are going to the old country from Canada this autumn, the local Canadian newspaper estimates that fully as many have gone from here as last year. From now on they will be returning in the steamers, by rail, and from there to Petrograd (St. Petersburg) or other Russian centers by rail.

THURSDAY'S INDUSTRIAL LUNCHEON PROMISES TO BE MOST INTERESTING

What promises to be a most interesting program of short talks is held for the noon luncheon of the Industrial association on Thursday, at Gregory's cafe.

Chas. W. Bishop, international secretary of the Young Men's Christian association, is to be present and speak to the gathering. Mr. Bishop is well-known in Edmonton and is a most forceful speaker along the lines of association and religious work among men. He travels from coast to coast in the pursuit of his duties and will have a most interesting talk for those present.

A. F. Ewing, M.P.P., will be another speaker at the luncheon, and H. D. McIntosh will address the association on "Profitable Gardening."

A specially attractive program has been prepared for the occasion, and altogether it looks as if this week's luncheon will surpass all others in point of interest and sociability.

TOO LATE TO CANCELL

THE BEST BY TEST—PHONE 7109. I best street lunch—this week, \$2.25 for 100, last week \$2.00. The best of us supply to the Grand trunk hotel and other large business blocks.

Office of Jas. A. MacKinnon, Suite 706 Taylor Block, Edmonton, Alta., Oct. 28, 1914. In the Matter of the Estate of Louis Z. Wender, Deceased.

NOTICE is hereby given that all creditors of the late Louis Z. Wender, who has passed away, are requested to present their claims to the undersigned at his office, 706 Taylor Block, Edmonton, Alberta, on or before the 15th day of November, 1914, after which date I will distribute the assets thereof, having regard to those claims only which have been duly received.

The creditors are notified to meet at my office, Suite 706 Taylor Block, Edmonton, Alberta, on the 15th day of November, 1914, at 10 o'clock in the morning.

JAS. A. MacKINNON, Official Assignee.

DRISCOL STATES UNSEATING BE MALICIOUS ACTION

However, Would not Come to Meetings, but Force an Immediate Election

MAYOR OUT OF CITY AND DR. SMITH TAKES CHAIR

Motion to Restore Previous Wage Schedule Lost by Only Chairman's Vote

In the absence of Mayor McNamara at Tuesday night's council meeting, Deputy Mayor Smith ruled on the proceedings. The Mayor is at his farm at Wetaskiwin. Alderman James East, who, however, appeared in his seat as usual, although the supreme court judge has decided he did, on the 28th of April last, become disqualified.

From this fact and Mr. East's appearance in the council chamber, it is probable, or difference of opinion, and Alderman Calder and Douglas stated they would have to refuse to sit at the council until the question of who were disqualified was definitely settled.

When the meeting was under way and had returned to the regular course of hearing delegations, one matter came up that would require the voting of a sum of money and the question arose as to the legality of the Mayor's action. In the matter, were Alderman East to vote on the question, and after City Solicitor Goring had stated his opinion that he believed that any action taken by the council in which Mr. East took a part in voting would be void, Mr. East decided to vacate his seat and take no part therein, but even after and during the balance of the meeting he persisted in constantly sitting from his regular seat on the council to a seat outside, sitting in which, he would be an outcast to the proceedings.

No Formal Order Yet. City Clerk Cox stated that he had received no formal order from the court of Mr. East's disqualification and of the seat being vacated by Alderman East said he had received none. Alderman Douglas doubted very much if the council could do anything to alter the conditions in which they were there last night, and he made a motion to adjourn. This motion was lost and it was then, and the city solicitor had given his opinion, that the two Aldermen left their seats.

Alderman East took occasion to state that he would not resign but said he would refrain from voting on any measures that might come up. Alderman Driscoll described the action that had been taken by Alderman East as malicious and stated that he would not resign but said he would refrain from voting on any measures that might come up. Alderman Driscoll described the action that had been taken by Alderman East as malicious and stated that he would not resign but said he would refrain from voting on any measures that might come up.

Liberal to Militia. The Aldermen last night were all for granting anything and everything for the use of the militia in any record resolution was passed whereby the militia might have the use of all buildings and grounds at the exhibition grounds and other places. This will include, if necessary, the house building, which is practically the only building in the city that will be of any great use to a large body of militia. During the discussion, Alderman Clarke moved that the city should have a free open air rink in the vicinity of the exhibition grounds, and the council agreed to have instructions to have the lights installed on Fourth street for the benefit of the militia training there.

A protest was entered by James McRae, representing the journeymen tailors, against having contracts for uniforms and overalls for civic employees made outside of the city. The commissioners, in their efforts to lower the cost to the city, had agreed to accept the lowest tender for overalls for street railway men and this tender was a Toronto firm. Local dealers protested and the council spoke in favor of letting contracts in the city for such work, even if the price was a few cents more.

Salary Question Again. As requested at a former meeting of the council, the superintendent was present at last night's meeting and was in a position to explain the trouble in their respective departments. I received the salary question. Various departments have registered a protest against the reduction in salary as put into effect on the first of September last.

It was pointed out that the heads of departments had agreed to an agreement with their employees as to salaries, but a doubt was voiced as to whether these agreements would hold water and the question arose if the head of any department had the right to sign an agreement binding the city to pay a certain salary.

Alderman Clarke and Kinney moved that the salaries of all civic employees be put back to the scale as it was before the reduction. The motion was in favor of the motion, but Alderman Campbell, Driscoll and Sheppard voted against it, and the deciding vote of the acting mayor lost the motion. Thus were the salaries of all civic employees nearer to being put back than on any previous occasion, the vote being lost by but one.

Other Grants Made. A grant of \$2,500, for the Edmonton Poultry association was authorized. The association proposes holding a poultry show in January and the \$2,500 will be used in the way of prizes. A grant to

JOHNSTONE WALKER'S DAILY STORE NEWS

Equal the light and water bills of the Sisters of Our Lady of Charity refuge was authorized.
Commissioner Booth presented plans of the proposed cemetery sites. They will be discussed later. The early closing bylaw was given its third reading and finally passed. The bylaw fixing the new polling subdivisions was read the reduction in salary as put into effect on the first of September last.
It was pointed out that the heads of departments had agreed to an agreement with their employees as to salaries, but a doubt was voiced as to whether these agreements would hold water and the question arose if the head of any department had the right to sign an agreement binding the city to pay a certain salary.
Alderman Clarke and Kinney moved that the salaries of all civic employees be put back to the scale as it was before the reduction. The motion was in favor of the motion, but Alderman Campbell, Driscoll and Sheppard voted against it, and the deciding vote of the acting mayor lost the motion. Thus were the salaries of all civic employees nearer to being put back than on any previous occasion, the vote being lost by but one.
Other Grants Made. A grant of \$2,500, for the Edmonton Poultry association was authorized. The association proposes holding a poultry show in January and the \$2,500 will be used in the way of prizes. A grant to
